# Instructions

1. How to connect the screen

A. Using USB-cable: Connect the Type-C interface to the screen, and connect the USB interface to the PC.

USB interface

Type-C interface

O° XuanFang 3.5 inch Screen

B. Using 4PIN-cable: Ensure that the red pin plug in the USB+5V interface, and plug the rest pins in the default order. The two USB+5V interface can be choose equivalently.

```
USB+5V  ─┤■  ■├─  USB+5V
USB_P9- ─┤■  ■├─  USB_P10-
USB_P9+ ──■  ■├─  USB_P10+
  GND   ─┤■  ■├─  GND
              ■├─  NC
```

C. Using adapting base: Connect the Type-C interface of the screen with the adapting base, and connect the device's USB interface with PC.

Attention: Please choose only one of the above methods. Do not use USB and 4PIN simultaneously. It may damage the screen.
