Parameter description
LA38M

Metal

power switch button

Parameter Description

Rated insulated Voltage:	660V
Rated impulse withstand voltage:	4KV
Front protect class:	IP54/IP65
Withstand Voltage:	2.5KV/1MIN
insulation resistance:	≥50M
Conventional heating current:	10A
contact resistance:	≤50mΩ
Contact Type:	1NO1NC/2NO2NC
Base:	Pa66
Active rod:	PA66
Operating Temperature Range:	-40°C through +70°C
Installation aperture:	22mm

Size and material application

LA38M
